

Information for Lancashire commissioners

Date :- 20.05.20

VB/JNS

Sexual Health Services continue to provide Contraception, GUM test and treat and HIV treatment and care during COVID – 19 restrictions. The service offer has been revised, currently there is no 'drop in' and patients are required to contact the service via the central booking line 0300 1234 154 Monday to Friday 9-5pm. They will be assessed/ triaged by a sexual health clinician as to whether they can be dealt with remotely or require a face to face appointment.

GP's, practice nurses and pharmacists can access advice by calling the sexual health secretaries on 01772 522359 or 01253 956850 and they will arrange for an appropriate clinician to speak to them.

The service is now offering online STI testing kits. Lancashire residents (excluding Blackburn with Darwen) can access a screen by completing a request form on www.lancashiresexualhealth.nhs.uk. Blackburn and Darwen residents can access testing by contacting 01254 283888.
